EDUCATION OPPORTUNITIES NOW AVAILABLE!

The CGA is pleased to bring you your education opportunities for 2021! While we can't be together in person this year, we can be together virtually to better our industry.

As part of the NGWA Partner State relationship, we have the ability to share in the use of the NGWA University portal. Please note that while you may need to create a username and password on the following page to access your education, you will NOT automatically become an NGWA member, nor will your email be used by NGWA. This is only used for confirmation of registration, and to send you your certificate of completion.

Throughout the year, we will announce new education opportunities here on the website, through our association newsletter, e-updates, and more.

Please **CLICK HERE** to access the education portal, and to learn how to proceed.

Who we are

2019 CGA CONVENTION

WELCOME TO THE 103rd ANNUAL CALIFORNIA GROUNDWATER ASSOCIATION CONVENTION & TRADE SHOW

7:16 AM 2/15/2021

On the next page (a new tab will open), you will need to sign in (or up) as stated on this page. Click either the “Sign-in” or “Sign-up” options:

Welcome everyone to the 2021 VIRTUAL Education Portal for the California Groundwater Association!

This year, due to COVID-19, we have had to cancel our in-person event, but the California Groundwater Association is still very committed to bringing you access to our great Manufacturers and Suppliers, as well as education tracks for each of you to use in the obtaining of your Education Credits for license renewal, and to help further your knowledge of this industry!

Please read the following logistical information so you can register and obtain these courses with as much ease as possible:

1. Click here to **“Sign In”** (if you already have an NGWA website account) or here to **“Sign Up”** for an account. *(The Sign Up link will allow you to create an account on NGWA.org so that you can take courses available on NGWA University and receive certificates of attendance. It does not mean that you are joining NGWA.)*
2. Educational tracks are a-la-carte, so you will need to register for each course you will be taking. Pricing is as follows: Early rate: \$39 each. After May 1, the rate is \$49.
3. Dedicate at least one hour to each course that you take, grab a cup of coffee and a danish, take some notes along the way and enjoy!

Select from these courses:

- **Borehole Logging**
- **Chemicals and Techniques Used for Well Development**

You will be directed to a page to do so:
